Motivated and detail-oriented MCA final-year student with solid knowledge of MERN Stack technologies (MongoDB, Express.js, React.js, Node.js). Eager to apply problem-solving skills, front-end and back-end development expertise, and database management knowledge in a dynamic organization through an internship or entry-level role to build innovative, scalable web applications and grow as a software professional.

Technical Skills

Programming Languages: JavaScript (ES6+), HTML5, CSS3,
Frameworks & Libraries: React.js, Express.js, Node.js, Redux, RESTful APIs, JSON, jQuery, Bootstrap
Databases & Cloud: MongoDB Atlas, MongoDB, MySQL (Basics)
Tools & Platforms: Git, GitHub, Visual Studio Code, Eclipse, Postman,

Education

- Sandip Institute of Technology and Research Centre (Pune University)
MCA (Master of Computer Application) *Appearing* 2024 – 2026
- G H Rasoni Institute Jalgaon (North Maharashtra University)
BCA (Bachelor of Computer Application) *CGPA: 7.64* 2021– 2024
- DSMP Junior College Bhadgaon (Maharashtra State Board)
HSC (Higher Secondary Certificate) *Percentage: 83.17%* 2020– 2021
- LVM School Bhadgaon (Maharashtra State Board)
SSC (Secondary School Certificate) *Percentage: 80.20%* 2018– 2019

Projects

Full Stack Movie Ticket Booking Web Application

- Tech Stack: MongoDB, *Atlas* Express.js, React.js, Node.js, Mongoose, Bootstrap
- Developed a full-stack web application for online movie ticket booking using the MERN Stack.
 - Designed an interactive and responsive front-end with React.js and Bootstrap for an intuitive user experience.
 - Built a RESTful API using Node.js and Express.js to handle user requests, movie data, and seat booking operations.
 - Used MongoDB Atlas as a cloud-based database to store and manage movies, users, and booking information.
 - Implemented CRUD operations for managing movie details, seats, and booking data.
 - Created an Admin Dashboard for managing movies, schedules, and seat availability
 - Ensured smooth front-end and back-end integration for real-time data updates and seamless operations.

Personal Portfolio Website (Portfolio)

- Tech Stack: HTML5, CSS3, JavaScript, Tailwind CSS Bootstrap
- Designed and developed a responsive personal portfolio website using HTML, CSS, JavaScript, and Tailwind CSS.
 - Created a modern, user-friendly interface to showcase personal information, technical skills, projects, and contact details.
 - Utilized Tailwind CSS for fast UI development and consistent, responsive design across all devices.
 - Implemented smooth navigation and animations using JavaScript to enhance user experience.
 - Applied clean and maintainable code structure following best front-end development practices.
 - Focused on responsive layout, color balance, and content alignment to improve visual appeal and professionalism.
